

TLRD series

Refillable automatic grease dispenser

The TLRD series is a refillable electro-mechanical single-point grease dispenser, which can be reused by simply refilling it with fresh grease and installing with a new battery pack. It brings additional value compared to gas-driven lubricators as it can be operated under variable temperatures, or when the application conditions require a remote mounting (in case of vibration, limited space or hazardous environment), or when a simple filling / refilling process is required.

- Available in 2 sizes (150 and 250 ml)
- To be filled with any compatible grease (it is supplied without lubricant)
- Can be filled and refilled easily with a standard grease gun/pump
- Maximum discharge pressure of 5 bars over the full dispensing period
- Visual inspection is easy through the translucent reservoir
- Normal / abnormal working conditions are indicated by a LED
- Connection nipples and other installation accessories are available
- Suitable for both direct and remote installation

Typical applications

- Applications in restrictive and hazardous locations
- Bearing housing lubrication
- Electric motors
- Fans and pumps
- Conveyors
- Cranes
- Food and beverage processing machinery
- Many more

TLRD 1-FA

Ordering details

Designation	Description
TLRD 150	Drive unit kit (150 ml) incl. empty cartridge, drive unit with cap and battery pack
TLRD 250	Drive unit kit (250 ml) incl. empty cartridge, drive unit with cap and battery pack
TLRD 1-FA	Filling adapter (all cartridges)

TLRD 250

TLRD 150

Technical data		
Designation	TLRD 150	TLRD 250
Approx. dimensions	152 × 89 mm (6 × 3.5 in.)	196 × 102 mm (7.7 × 4 in.)
Weight	0.58 kg (1.28 lb)	0.68 kg (1.50 lb)
Grease capacity	150 ml (5.1 fl. oz US)	250 ml (8.5 fl. oz US)
Time setting	Adjustable 1 to 12 months	Adjustable 1 to 12 months
Outlet interface	G½	G½
Ambient temperature range	-20 to + 60 °C (-4 to +140 °F)	-20 to + 60 °C (-4 to +140 °F)
Operating pressure range	Up to 5 bar	Up to 5 bar
Electrical rating	6V CR-P2 Lithium (1 400 mAh)	6V CR-P2 Lithium (1 400 mAh)
Storage temperature range	0 to 50 °C (32 to 122 °F)	0 to 50 °C (32 to 122 °F)
Drive mechanism	Electro-mechanical	Electro-mechanical
Maximum feed line length	Up to 3 meters (10 ft)	Up to 3 meters (10 ft)
Protection class assembled lubricator	IP 65	IP 65

Accessories					
Designation	Description	Designation	Description	Designation	Description
